REPORT OF BOARD OF HEALTH.

During the past year the town has been free from any epidemic of contagious diseases, only a few isolated cases of such diseases coming to our notice.

No serious nuisances have been reported to us. It may not be generally known that the Board of Health is required to disinfect houses in which deaths from consumption occur, in accordance with a law passed by the last Legislature.

REPORT OF SCHOOL BOARD.

We feel that the schools for the past year have made fairly good progress, and if not accomplishing all that might have been desired, their good standing and reputation in the past has not been allowed to lower or diminish.

The usual 30 weeks of schooling has been provided in the several sections of the town, with the exception of a few pupils living in that part known as No. 10, wherein the town does not own any school room. But conveyance was furnished for these pupils during the spring and fall terms, to school room No. 9, about three miles distance, thus giving them the benefit of 24 weeks of school during the year.

Still, the state of education in that section is in an unsatisfactory condition, and presents a problem yet to be solved.

Your Board would like to call the attention of the town to the fact that the government at Washington, D. C., has published a very instructive map of the United States and by the kindness of Senator Hon. Henry E. Burnham, through the agency of Reed Paige Clark a sufficient number of these maps have been presented free of cost to our town to supply each school room.

In regard to music being taught in the schools, as per vote at the last annual meeting, we have not made the progress we had hoped for. We have consulted with music teachers and learned that the expense of books and charts would be more than we thought it advisable to incur at this time, but we have considered the plan of using black boards

instead of charts for a time, and to purchase books in small numbers as required.

We will try as far as possible to have teachers that can teach music without neglecting other school work.

The only change in text books for the past year has been the introduction of the "Progressive" series of Spellers by J. N. Hunt in the place of Worcester's Spellers, which has been in use since 1887. And your board now feel that a worthy and well rounded list of text books are being used in our schools.

You will note, by reference to the financial report that quite a liberal amount of repairs have been made on the school buildings the past year. We think it wise that the school property be kept in good condition and that the citizens of Londonderry can always be able to point with pride to the neatness and good order of her school resources.

The chairman of your School Board for the past year, whose term of office expires with this current school year, feels it his duty and privilege to retire from all further public school work, and would most respectfully embrace this opportunity to return his sincere thanks to all who have so nobly sustained him in his eight years service.
